

Pyroelectric Infrared Detectors

# Dual Element Detector LHi 968

## High End Dual Element Detector

## Special RFI Protection

## Designed for PIR Alarms

The **LHi 968** pyroelectric infrared-detector series is specially designed for Intrusion Alarm applications. It includes a dual element pyroelectric ceramic with FET in source follower connection and RF protection by a resistor and additional capacitor.

This detector is available in **TO-5** housing with an infrared filter which protects the elements from strong white light disturbance. It offers high responsivity with excellent common mode performance (match) and low noise.
